

Swimming as nature intended

**Chlorine-Free & Salt-Free Spa and Pool Products,
that treat you as well as your pool and spa**

PREPARING YOUR POOL FOR THE ENVIRO SYSTEM:

- **Do Not** treat pool with any chemicals.
- Remove any chlorinating tablets
- Turn off Salt Chlorinator
- Take a sample of water and test chlorine level with Test Stick
- If test shows a chlorine reading allow pool to burn out any residue.
- Check again the next day and test stick should register no chlorine
- Ensure filter is still running as usual
- Check filter cartridge is clean
- If not remove cartridge and hose until clean.
- Test pH level should be 7.6 – 7.8
- If below this level then add pH raiser to increase level
- Leave 2 hrs test pH again , if at 7.6-7.8 then:
- Dose as per instructions.
- Run filter and can use pool within the hour.
- **DO NOT PLACE BIOBLU IN POOL IF ANY CHLORINE REGISTERS ON TEST STICK.**
